

West Virginia College Going Rates By County and High School Fall 2008

West Virginia
Higher Education
Policy Commission

INTRODUCTION

Every year, the West Virginia Higher Education Policy Commission's Division of Policy and Planning compiles a listing of West Virginia's college going rates by county and high school. This report would not be possible without the gracious hard work and contributions from the colleges and universities, high schools, county superintendents, and the West Virginia Department of Education.

The improvement of literacy rates, educational levels, and college going rates are important goals for the betterment of the State and its economy. The college going rate echoes the successes of the Governor, legislators, government agencies, students, and parents in contributing to the State's education system as a whole. Success in this area is hard-won through diligence and constant attention. The attached report makes an effort to document progress to identify areas for continued efforts for improvement.

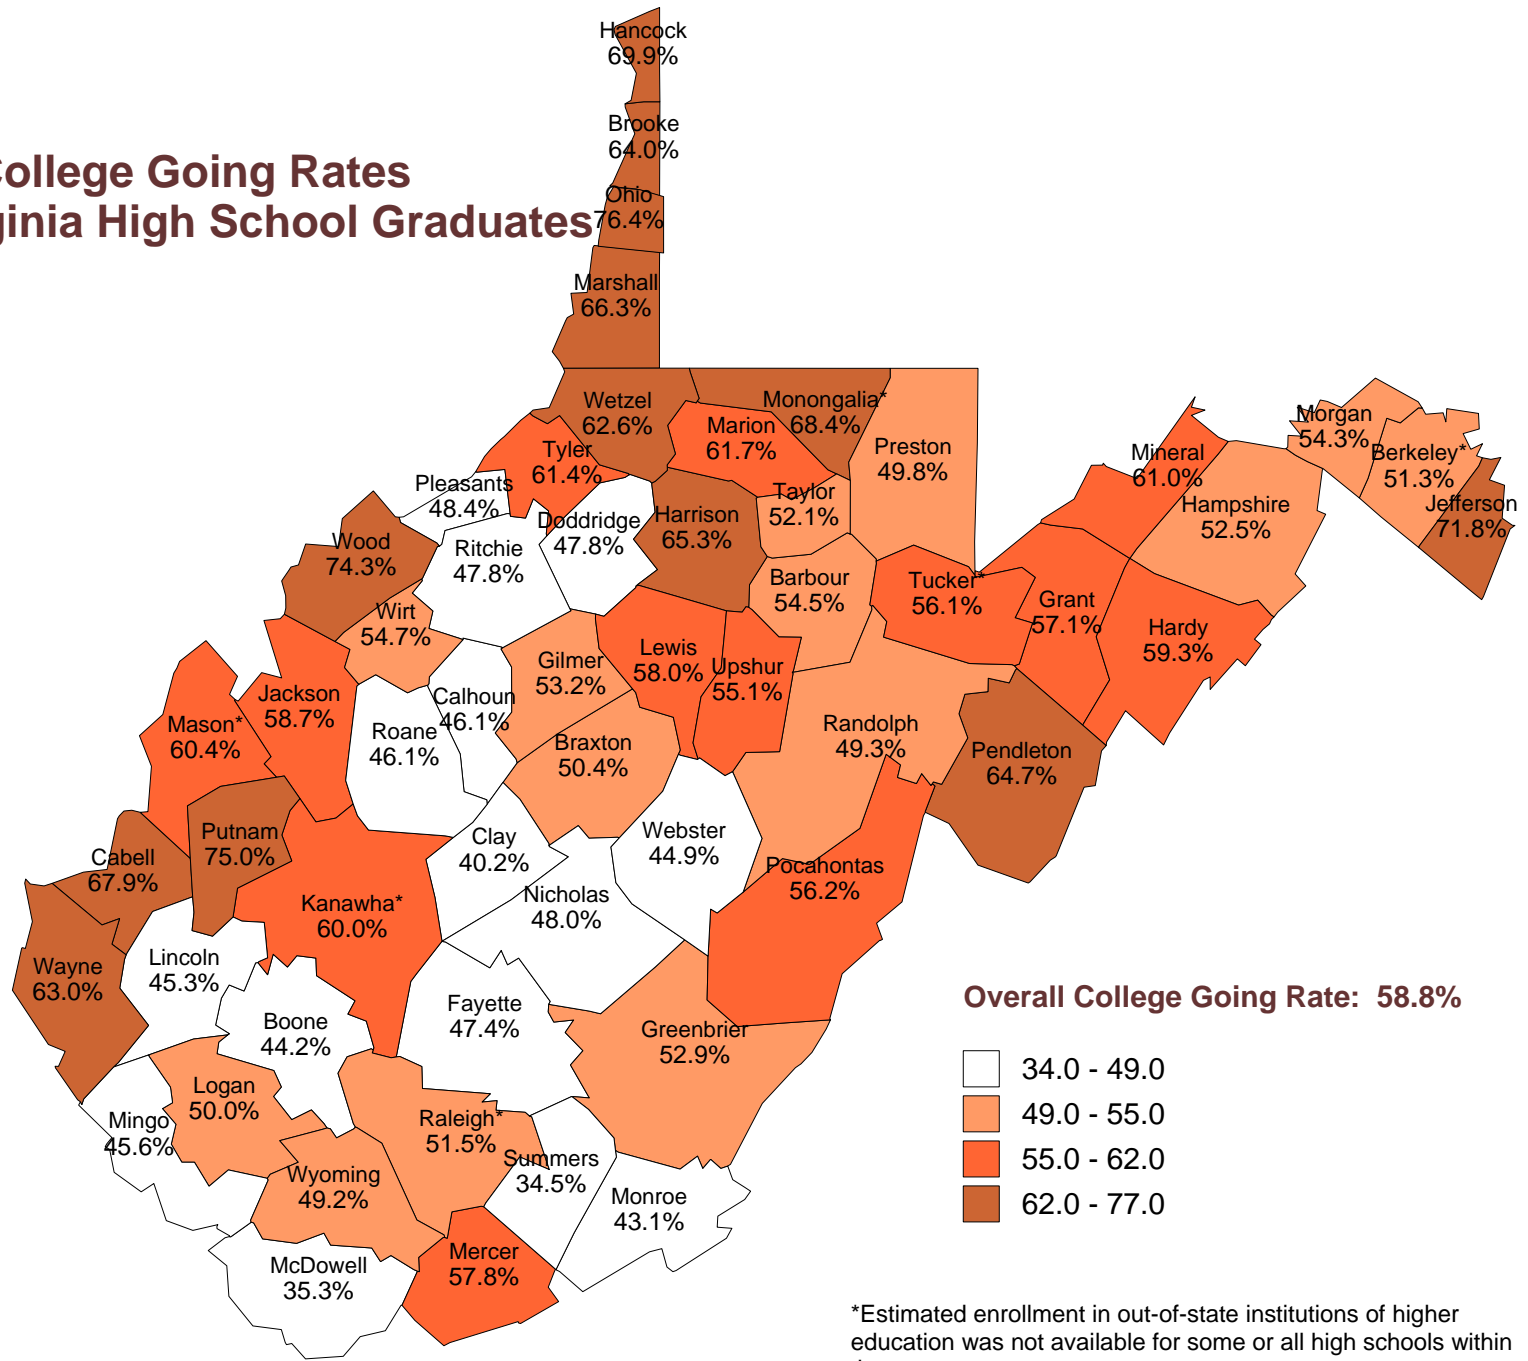

Please contact Ms. Jeannie Reed at 304-558-1112 or reedjr@hepc.wvnet.edu with any questions or suggestions.

West Virginia College Going Rate Highlights Fall 2008

- Of the 18,222 students who graduated from public or private high schools in West Virginia during 2007-08, an estimated 10,708 **(58.8%) enrolled in higher education institutions** in the fall 2008 semester. This represents **a 1.3% increase in the overall rate** since last year. Decreases were witnessed by the WV public two-year and WV independent institutions, while increases were noted in the WV public four-year, WV degree-granting proprietary, and out-of-state institutions. The number of WV high school graduates rose by 1.7%.
- 9,132 of these West Virginia high school graduates enrolled in one of the state's public (44.9%), independent (4.1%), or degree-granting proprietary (1.1%) colleges or universities. This generated an **in-state college going rate of 50.1%**, which represents **a 1.3% increase over last year's figure**.
- In addition to the high school graduates who enrolled in a West Virginia college or university in fall 2008, it is estimated that another 1,576 **(8.6%) were attending a college or university in another state**. This reflects almost **no change** over last year's figure.

Note: Estimates of enrollment in out-of-state higher education institutions are based on surveys of West Virginia High schools. Not all out-of-state higher education enrollment can be tracked; therefore, these figures will not exactly match nationally-published overall going rates for West Virginia.

NA=estimated enrollment in out-of-state institutions of higher education was not available.

Private high schools are italicized.

Fall 2004 to Fall 2008

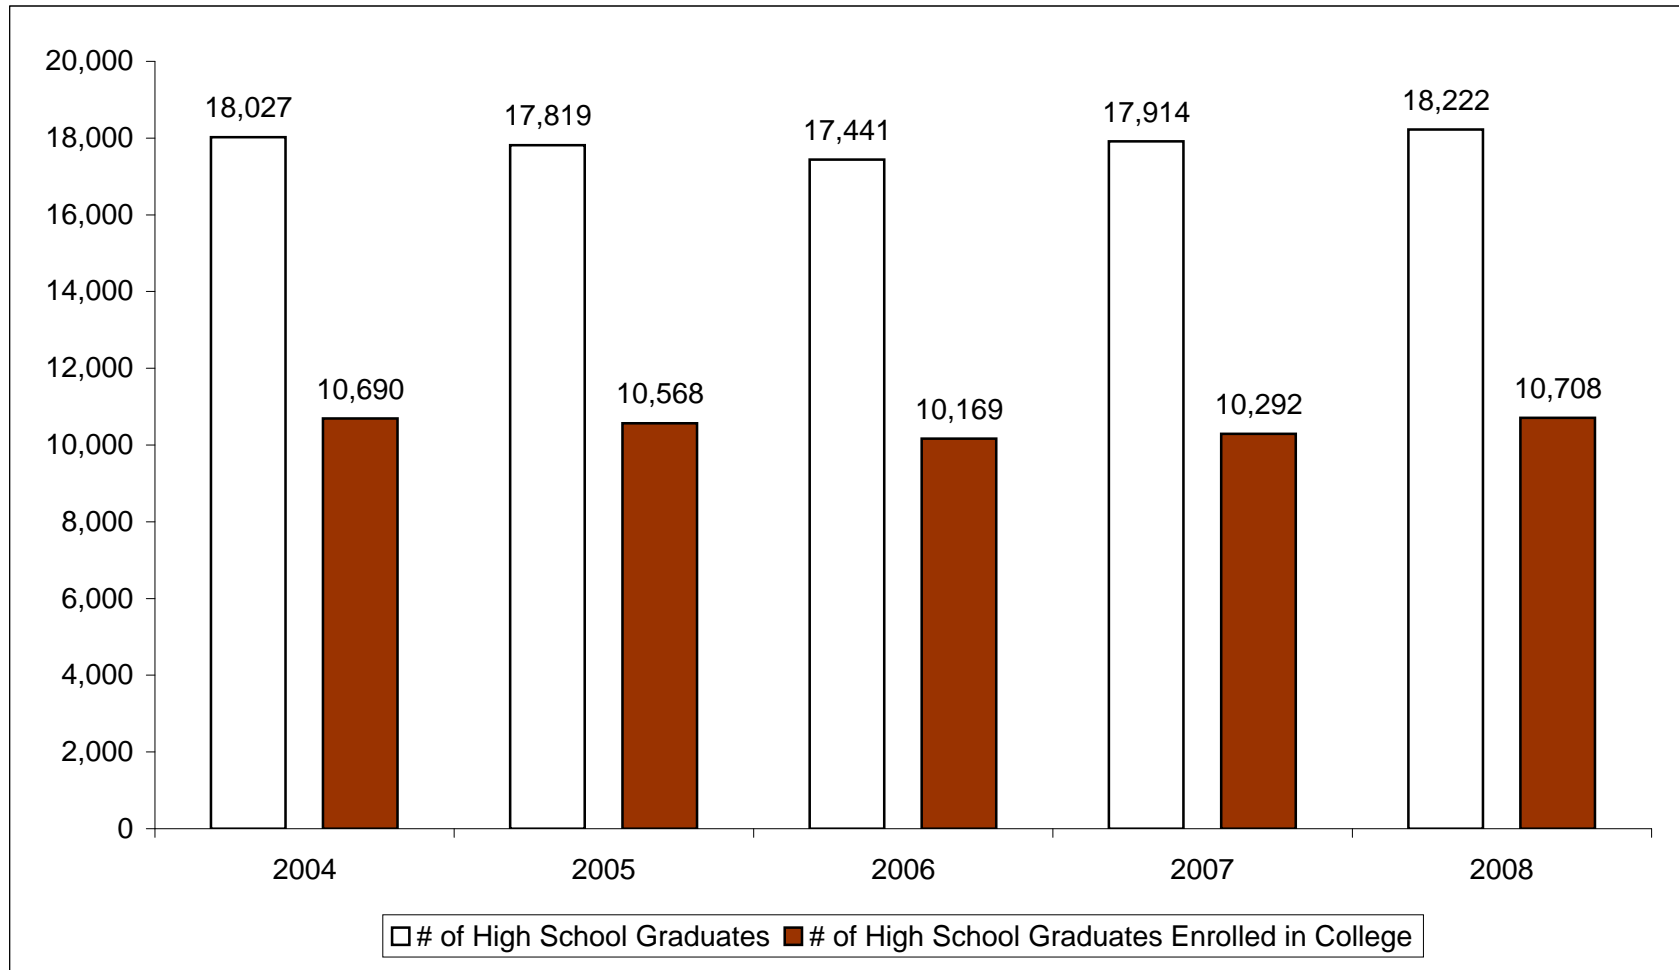

Notes:

1) Estimates of enrollment in out-of-state higher education institutions are based on surveys of West Virginia high schools. Not all out-of-state higher education enrollment can be tracked; therefore, these figures will not exactly match nationally-published overall going rates for West Virginia.

2) Data for 2004 in this chart will not completely agree with data in prior publications due to corrections received from the degree-granting proprietary sector of higher education.

West Virginia High School Graduates and Graduates Enrolling in College
2004-2008

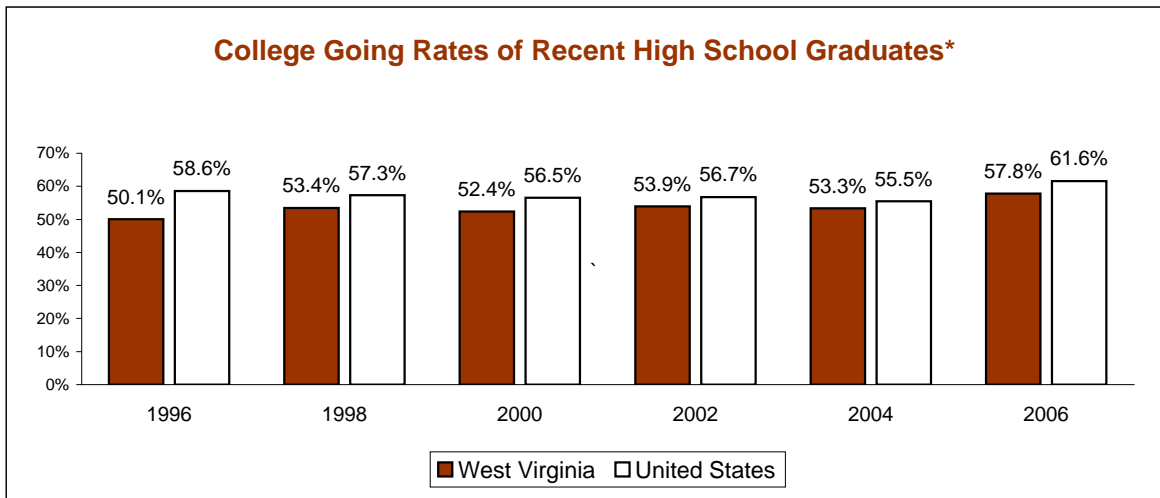

Note:

Number of high school graduates enrolled in college in 2004 will not match data in prior publications due to corrections received from the degree-granting proprietary sector of higher education.

Note: The 2005-06 WV public high school graduation rate per the WV Department of Education is 85%.

*Rate equals the number of first-time freshmen who graduated from high school in the past year from "state X" enrolled anywhere in the U.S. divided by the number of public and private high school graduates.

Note: Rates for WV do not match rates elsewhere in this publication due to differences in collection criteria and sources of data used.
